

*Wines to taste & experience!*

The Zellertal is located in the wine producing region „Pfalz“ in the state of Rheinland-Pfalz (Rhineland-Palatinate). It is the northern most producing region in the state which is the gateway between Rhein-hessen and the Pfalz. It is very unique to have two producing regions within the same area. Since the Donnersberg, the tallest mountain in the state (687m/ 2254ft) is located nearby the temperatures and precipitation are lower on average which generates large, concentrated and fruity wines.

In 1928 a WW1 monument was built out of regional limestone to remember local fallen soldiers. In 1960 they replaced the plaque of names with a bronze plaque and added fallen soldiers of WW2 to it along with soldiers that went MIA. The memorial is supposed to highlight the unity of the Zellertal.

Weingut Schwan is a 4th generation winery located in Niefernheim which is the smallest town of the Zellertal. Charlotte and Dirk Himmel manage and run the family winery. The face to face contact with customers is their top priority which always makes for a welcoming and fun visit.
